SATURDAY......JUNE 26, 1880.

FOR PRESIDENT.

JAMES A. GARFIELD,

Of Ohio.

FOR VICE PRESIDENT.

CHESTER A. ARTHUR. Of New York.

NEWS OF THE MORNING.

The report of the recent examinations at West Point is made public. In the case of whittaker the report recommended that, as he was found deficient

in the same class, he was discharged.

Denis Kearney denounces the Democratic ticket with characteristic and unequivocal severity, and declares that it will be opposed vigorously by the Greenbackers' organization. He says he remains in Cincinnati to speak against the ticket to-night and then proceeds west. He says the Democrats have scaled their own destruction.

Dr. Turner, one of the officials of the National Board of Health, has been instatement relative to the probability of yellow fever on the Atlantic coast this Summer. As to the Mississippi Valley he thinks the fever will be confined to New Orleans, which city is in a very filthy condition. As to the Atlantic coast, he says this year is the cycle in which yellow fever may be expected between Charleston and New York. If they get the fever in Norfolk, which is probable, it is more than probable that it will be carried to Baltimore, and it ese doctor, came, and although a Pagan, will be next to impossible to keep it he took in the situation at once, and trom being brought to New York and instead of antidots or neutralizer, rushfrom being brought to New York and to Washington.

It has been stated, in a general way, that the late Parliamentary elections in England were very expensive, but now we have some of the largest amounts him. expended summarized, which amply confirms the report. Manchester spent \$100,000; Birmingham, \$65,000; Bradford, \$50,000; Glasgow, \$70,000; Sheffield, Renfrew and Wolverhampton, \$30,000 each; Norwich, \$35,000, and Hull and Bolton \$25,000 each. These sums do not, by any means, represent entire costs of the election. They are only the heavier amounts. It is said a good deal of money is annually used for political corruption funds in this country, but the English people have, no right to make such an accusation.

The mortality in Cincinnati for the month of May in said to have been unprecedeted. There were in that period on less than 499 deaths. There was a score or more cases of cholera morbus. The telegraph informs us that the weather just now is oppressively hot in that city, which will be very likely to stimulate the Democratic Convention to as hasty a conclusion as possible of its

Democratic orators and papers are trying to find out what great and glorious services Hancock and English have done the country. So far they have discovered that Hancock hung Mrs. Surratt (which they have always denounced as a fearful murder!) and that English has always been a rabid copperhead. The way of the Democratic whitewashers is hard.

Wasps nests are frequently ignited by some chemical action, supposed to be that of the wax upon the paper-like substances of which the nests are formed. Spontaneous combustion of this nature is believed to have been the cause of many mysterious fires in hay stacks and farmers' out-buildings.

Dr. Lane states that "the source of disease in San Francisco, if a local one be sought, exists in imperfect sewerage. From the openings from these diseasebearing canals at street corners more noxious germs are being emitted than arise from the entire cemetery. To these subterranean beds of poison disease may be traced rather than to the graves of our cemeteries.

It is said of President Hayes that he has appointed more literary men to foreign missions than any other President of the United States. It is a well known fact that Secretary Evarts is in favor of county, describes a Piute wedding. It sending men of letters abroad.

Somebody has discovered that cats can't live at a greater elevation than exciting chase of nearly half a mile the land led dusky maiden was captured and led be built about 13,500 feet high.

When Webster said "there is always When Webster said "there is always Spring fish hooks are just beginning room at the top" he was not referring to work out of the heels of Indiana

THE STATE FAIR. cellent Showing.

It wouldn't be a bad idea for the Trustees of the State Agricultural Society to send out a poster, an advertise-ment, a dodger, or something of the sort, into the eastern part of Nevada, stating at what time this fall they in-tend to array Nevada's productions, curiosities, and monstrosities, subject to the gaze of those who desire to see them. For several years there has been nothing in this part of the State to indicate at what date the State Fair was being held in Reno--if we except a mere local mention--and no inducements were offered to enti-use our potatoe growers, pumpkin raisers, or bronco riders. It is said that the Trustees have decided to hold the Fair a month earlier this fall than in former years; that liberal prizes are to be offered; that the Militia are to parade; inducements are offered to the best drilled company on the parade, etc., etc., and that this year's efforts put forth by the Society will surpass all others. So iar, so good. It is about time that another county be admitted, and not confine to a few setthements along the borders of California a matter that should be in the cars in his studies and having been two years and mouths of every resident of the State.-[Eureka Sentinel.

We will see that the above is promptly attended to.

An Inexcusable Vabrication.

(Deadwood Times 1

There was an exciting affair on lower Main street the other day. A gentle-man who came in as persuader to a bovine outfit was suffering from a drouth when he struck the town, and with the recklessness characteristic of his profession rushed into a saloon kept by the Tartar woman, Mary, and grabdiscreet enough to apparently authorize bing up a bottle that was sitting under the publication of a very sensational the counter, drank nearly half of the contents before he stopped to take a bresth. When he did stop and had time to taste what he had been drinking, he gave a yell and whispering "coal oil," sank upon the floor.

It was too true. In his eagerness he had taken the wrong bottle and had thrown himself around nearly half a pint of kerosene, and, thinking his last hour had come, called loudly for mercy. Doctors were sent for in haste and they ed out and in a few minutes returned with a bail of candle wick and, placing one end in the patient's mouth, bade him swallow. This the sufferer complied with, and after a half ball had been swallowed. Dr. Sick set it on fire and soon burned all the coal oil out of

BRISTOL PTEMS.

[From the Pioche Record.]

A charge of forty pounds of giant powder was set off in the artesian well of the Bristol Company, for the purpose of breaking up a huge bowlder which was rather hard to drill through. The force of the explosion threw the water up many feet above the large derrick, and sending the planks right and left. Boring has been resumed, and there is about 200 feet of water in the well.

The putting in place the past few days of the new whim at the Mendha has somewhat retarded the hoisting of ore, but now everything is working as usual about the mine, and sinking upon the main shaft has begun.

P. Arnold, the foreman of the Hillsickness, is again on his feet.

The Hensley, of Highland, is ship ping ore to the furrace, averaging \$315 per ton in silver, and from 60 to 70 per

The Hillside furnace, is in steady operation, and running well.

Notes Clipped from the Courier of Last Saturday.

There are quite a number of San Francisco and Comstock mining men in Nye county at the present time in-specting mines. There are plenty of good mines in this county, and all we lack is capital to work them.

The weather was so cold (in Monitor Valley last week that water froze every night there.

The vaqueros are busy hunting up stock on the different ranges in this

county. The snow on the Toiyabe range of mountains is melting away very slowly. Some prospecting is being done in the hills northwest of town.

Madame Rigine, the wife of a law officer at Versailles, dropping some re-marks which were out of place, though not important, her husband reprimend ed her before the company, saying.

"Silence, madam; you are a foo!!"

The lady immediately subsided.
She lived for twenty or thirty years
afterward, and never uttered a single word to anybody—not even to her child-ren. A pretended their was committed in her presence, in the hope of taking her by surprise, but with no affect nothing could induce her to speak When her consent was requisite to the marriage of any of her children, she bowed her head and signed the contract, and even when she died she merely sighed "adieu!"

The Mountain Review, of Lassen forty-acre lot, and the man, according to custom, was compelled to catch her or the wedding was no go. After an panting to the altar.

to the advertising page of a daily paper. women who go barefooted.

THE CHICAGO HOTELS.

A United Effort will Make an Ex. How They Profited by the Bopublican Convention-Over \$400,000

[From the Chicago Times, June 11th.]

Competent authority estimates the number of strangers who visited the city during the days of the Convention at upward of fifty thousand. Of this number the Grand Pacific Hotel and curiosities, and monstresities, subject Palmer House, respective headquarters to the gaze of those who desire to see of the two leading parties in the contest, each afforded accommodations to about two thousand guests. These were the houses most taxed for accommodation. The great influx of delegates and visitors set in on Monday a week ago, and remained with us in large part up to Saturday and Sunday night last when the sight seers, becoming weary of the tardy action of the Convention, commenced to thin out. It was not, however, until Wednesday morning last that any perceptible change was noticeable in the crowds at the hotels. Then a general outpouring commenced, and continued until late into the evening, when the caravansaries again assumed their every day appearances. The Palmer House contains 800 rooms, capable of accommodating over 2,000 guests. To meet the requirements of the recent boom, Mr. Palmer added 600 extra beds, which were placed in every available apartment of the house, and made liberal expenditures in other directions for the accommodations of his visitors. It is claimed that over \$17,000 was expended in this manner, for which liberal returns have since been made. The receipts of the house during the Convention boom foot up ever \$105,-000. Of this amount about \$74,000 was received during the week of the Convention from the following sources: Board, \$54,000; bar \$9,500; restaurant, \$3,500; cafe, \$2,500, and billiards \$700. As a notable instance of the manner in which some of the workers entertained their friends, it may be stated that the bill of a prominent officer of Brooklyn, who came here to counteract some of Roscoe Conkling's influence, footed up a trifle over \$2,500. Some 200 extra waiters were employed by Mr. Palmer during the rush, which swelled the force of sable-hued attendants to over 350. As will be seen by the above figures, the bar receipts of the house averaged about \$1,050 a day, a sad commentary upon the work of the political evangelists. Over 3,000 people, it is claimed, dined at the hotel on Wednes-

> worked into pastry.
>
> At the Grand Pacific the demand for accommodation was fully equal to that at the Palmer, and during the latter days of the Convention, exceeded that of any other house in the city. This house contains 514 rooms, which, together with the temporary arrangements provided in the club-rooms, billiardrooms and parlors, afforded accommodations for 1,200 guests daily. On Tuesday last, the Convention day, over 2,500 people dined at Mr. Drake's cara-vansary. While the management of this z,000 people dified at Mr. Drake's Cara-yansary. While the management of this house do not feel disposed to afford a comparison of receipts with other houses, yet they are believed to have nearly reached \$100,000, but a trifle less than the Palmer House. The Tremont House, with the facilities afforded by 245 rooms and 300 extra cots, accommodated about 800 guests, and retained between \$27,000 and \$30,000 for its labors. The Sherman, containing 230 rooms, with its provided extra facilities averaged about 600 guests daily, and realized a profit nearly equal to that of the

day last, when 4,000 pounds of meat were served and seven barrels of flour

Tremont. It is estimated by hotel men and others, who claim to hold extra facilities for gaining a knowledge of such matters that the Convention "boom" brought over \$400,000 to Chicago, and, what is still more satisfactory, left that amount side, who has been unable the past here. In brief, the hotel men are uni-week to attend to his duties, owing to form in expressions of satisfaction at the results of their labors during the "Convention week," as they are pleased to term it, and believe that the experience gained will prove serviceable during the triennial conclave of Knights Templars, to be held in this city in August next, when Chicago will witness such a centering of humanity as she has never before experienced.

Highland Mining Camp, in Colorado, has been thrown into great excitement by the arrival of a "genuine female weman," the first that has ever brought civilization to the town. Travel had roughened her complexion, but she was a lovely vision none the less, and with twenty-five pounds of flour on her shoulder, followed her husband, who carried an infant in his arms and a pack of goods on his back. The miners at once called a meeting in honor of the acquisition of a real family, and told the wife to choose the block in town she liked best, and it should be hers even if buildings were already erected upon

The length of time seasoned timber will resist decomposition when totally submerged in water is hard to realize. The piles of old London bridge were found to be in good condition 800 years after they were driven, and those used as the foundation of Trajan's bridge over the Danube, A. D. 105, are still visible at low water.

A Macon, Ga., lady went to the postoffice, bought a stamp, asked a boy stick out his tongue, moistened the stamp on it and posted her letter. She would have been arrested in Maine for taking her licker with her.

THE CRADLE.

McCLURE-In Virginia City, June 24, to the wife of B. H. McClure, a daughter.

NATIONAL REPUBLICAN PLATFORM.

FIRE FOLLOWING IS THE PLATFORM of the National Republican Party adopted by

the Chicago Convention:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the peint where six per cent, bonds sold at 86, to that where four per cent, bonds and at 86, to that where four per cent, bonds are eagerly sought at a premium. Under its administration railways bave increased from \$1,000 miles in 1860 to more than \$2,000 miles in 1870,000,000 to \$1,150,000,000 in the same time, and our experts, which were \$20,000,000 loss 1879. Our foreign tends has increased from \$700,000,000 to \$1,150,000,000 in the same time, and our experts, which were \$20,000,000 less than our imports in 1879. Without resorting to loans, it has, since the war closed, defrayed the ordinary expenses of Government, besides the accruing interest on the public debt, and disbursed annually more than \$30,000,000 for soldiers' pensions. It has paid \$350,000,000 of the public debt, and by refunding the balance at lower rates has reduced the annual interest charge from nearly \$151,000,000 to eas than \$89,000,000. All the industries of the country have revived; labor is in demand; vages have increased, and throughout the entire country there is evidence of a conging prosperity greater than we have ever enjoyed. Upon this record the Bopublican party asks for the continued confidence and support of the people, and this Convention submits for their approval the following statements of the principle and purpose which will continue to guide and inspire its efforts:

THE REPUBLICAN POLICY.

First—We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fraits of the costly victories which we have schieved through immense difficulties should be preserved. That the chiesvered Union, now happily restored, should be perpetuated, and that the liberies secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so much reduced should be extinguished by the full payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great s²—I'd be steadily encouraged.

A NATION, NOT A CONFEDERACK.

A NATION, NOT A CONFEDERACY. A NATION, NOT A CONFEDERACY.

Second—The Constitution of the United States is the supreme law, and net a mere contract. Out of the confederated States it made a sovereign nation. Some powers are denied to the tation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by National and not by State tribunals.

POPULAR EDUCATION. POPULAR EDUCATION.

Third—The work of popular education is one left to the care of the several States, but it is the duty of the National Government to aid that work to the extent of its constitutional ability. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the graius of any one State, but by the average genius of all.

PROPOSED CONSTITUTIONAL AMENDMENT PROPOSED CONSTITUTIONAL AMENDMENT.

Fourth—The Constitution wisely forbids Congress to make any law respecting an establishment of religion, but it is alle to hope that the nation can be protected against the influence of sectarianism, while each State is exposed to its particular domination. We therefore recommend that the Constitution be so amended as to lay some prohibitions upon the legislature of each State, and to forbid the appropriation of the public funds to the support of sectarian schools.

DUITES OF THE DAY.

DUTTES OF THE DAY.

Fifth—We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenues should so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad er other corporation. That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American Firth must be secured to elizens by American adoption. That it is the duty of Congress to develop and improve our watercourses and harbors, but we insist that surther subsidies to private persons or corporations must case. That the obligations to the men who pressived its integrity in the day of battle are undiminished by the lapse of difteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

THE CHINESE PLANK.

Septa—Since the authority to regulate immi-

SEMA—Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and its treaty-making powers, that the kepublican party, regarding the unrestricted immigration of chinese as an evil of great magnitude, invokes the exercise of the power to restrain and limit that immigration by the enactment of such just, humans and reasonable provisions as will produce that result.

COMMENDATION OF MAYES.

Seventh—That the purity and patriotism which characterizes the earlier career of Rutherford B. Hayes in peace and war, and which guided the thought of hie immediate preducesor to him for a Presidential candidate, have continued to inspire him in his career as Chief Executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will honor his interposition between th people and proposed partises have.

ABBAIOSMENT OF THE DEMOCRACY.

Eight—We charge up u the Democratic party the habitual sacrifice of patriotism and justice to a supreme and unsatiable just for office and patronage, that to obtain possession of the National sand State governments, and the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the itional said State governments, and the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the ifreedom of suffrage; have devised fraudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all basards the vote of the majority of the States in the House of Representatives; have ondeavored to occupy by forbe and frand places of trust given to others by the people of Maine's particle sons; have by methods, victors in principle and tyrennical in practice, attached partissan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation; and have endeavored to obliterate the sacred memor as of the war, and to overceme its inestimable good results—freedom and individual equality. We aftern it to be the duty and purpose of the Republican pariy to use all the legitumate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, samable people of the United States to asy whether it would not be dangerous to the best interest of our country at this time to surrender the administration of the National Government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

Nuclean of the laws, and the protection of the other contraction and the laws, and the protection of the laws, and the protection of the place and the protection of the laws, and the protection of the contraction and the laws, and the protection of the laws, and the protection of the contraction and the laws and the protection of the contraction and the laws and the protection of the contraction and the laws and the protection of the contraction and the protection of the laws and the protection of t

tion and continuou where there is now order, confidence and hope.

Nink—The equal, and steady, and complete enforcement of the laws, and the protection of all our citizens in the enjoyment of all privileges and immunity guaranteed by the Constitution, are the first duties of the nation.

Tenk—The dangers of a "Solid South" can only be averted by a faithful performance of every promise which the nation has made to the utizes. The execution of the laws, and the punishment of all those who violate them, are the only safe methods by which an endering poace can be secured and gennine prosperity established throughout the South. Whatever promises the nation makes the nation must perform A nation cannot with safety relegate this duty to the States. The "Solid South" must be divided by the peaceful aspenies of the ballot, and all honest opinions must there find free expression. To this end the honest voter must be protected against terrorism, violence or fraud. protected against terrorism, violence or fraud.

Eleventh—And we affirm it to be the duty and
the purpose of the Republican party to use all
legitimate means to restore all the States of this the purpose of the Republican party to use all legitimate means to restore all the States of his Union to the most perfect harmony which may be possible, and we subrait to the practical, sensible people of those United States to say whether it would not be dangerous to the dearest interests of our country at this time to surrender the administration of the national Government to a purty which weeks to overthrow the existing policy under which we are so prospectus, and thus bring distrust and confusion where there is now order, confidence and hope. Totalih.—The Republican party adhering to the principles affirmed by its last National Convention of respect for the constitutional rules governing appointments to office, adopts the declaration of President Hay-a that the reform of the civil service should be thorough, radical and complete. To this end it demands the cooperation of the legislative with the executive departments of the Government, and that Congress shall so legislate that fitness, accertained by proper practical tests, shall admit to the public service. in the State. The Proprietor will endeavor to make it pleasant for all who may favor him with their patronage.

The Bodie road employs a great many Chinamen and wants many more. In fact the supply is not equal to the deindependent. They have become very answer to their challenge to the Carson arrogant and saucy and frequently un- club, expecting, in case of an acceptbearable. In several cases white men ance, to play there on the 4th. have been employed because of the loftiness of the "childlike and bland." Now that the Chinamen seem to have a brief advantage they propose to play it for all it is worth.

Democratic.

There will be a picnic at Bowers Mansion on Saturday, July 3d. Fare one dollar.

J. C. Hagerman represents Nevada

Bank Matters.

Nothing particularly new was elicited yesterday concerning the suspended telegraphed to J. C. Hagerman, one of Savings Bank. The Trustees intend to have a meeting this morning, and ascertain, if possible, the exact condition of affairs. Until a statement is prepared and published the public must draw its own conclusions. A great many depositors appeared yesterday, and certificates of from \$100 to \$1,000 were freely shown. It is said that there are over \$70,000 deposit certificates standing out, and these will be shown up as the news reaches the owners. The Bank owes Drexler \$20,000, but he has securities to an amount, some say, equal to \$5,000. The debt to the Anglo-Californian Bank is \$50,000, but that is also secured; most of the notes and mortgages were assigned to these parties some time ago. How much the overdraft due the Bank amounts to can only be told by an examination of the books. Mr. Lake told us last evening that from what he had learned he thought there was a good show, and that in time the concern might pay its debts. There is not much hope for the stockholders. The value of the capital stock is hardly worth mentioning. Among those who claim to be depositors are J. F. Condon \$500; Verdi Planing Mill Co., \$1,100; G. W. Huffaker, \$3,400; Ike Weston, \$2,000; I. Ashcraft, \$1,101; A. C. Blakely, \$516; Ras Ward, \$700; S. Stanaway, \$900; James Shannon, \$700; M. J Sommers, \$1,600; Rev. C. Mc-Kelvey, \$5,000; Mrs. Talbert, \$450; Mrs. McNeely, \$500; G. H. Bailey, \$2-267; L. L. Crockett, \$1,500; Knust & Jones, \$275; Hans Fransen, \$690; A. B. has McKenna, \$200.

Crockett's Statement.

Mr. Crockett came down from Carson last evening. He says in reference to the money taken from the Savings bank that the story so far as taking away three sacks of money, is untrue. He did take one sack of silver, containing \$1,084, belonging to the State. This money was the proceeds of checks sent by him to the bank for collection, and with a view of saving the percentage of one-half per cent. charged by Wells, Fargo & Co. The money was in no sense a deposit, but simply a collection, This has been Mr. Crockett's habit, and he claims to have saved the State a considerable amount in this way. Cor-

A Third of a Crop.

Farmers tell us that there will be about one third of a crop reaped this ceased brother mourus the loss of a year. The loss of the two-thirds is thus accounted for. The late season made it backward; that cold snap injured the young grain and now the grasshoppers are playing havor. Some of the farmers will commence cutting their preparation. first crop during the coming week.

Horse Sale.

Theo Winters has sold Silas Mulkey of Montana 175 horses, all good breed, for \$20 a flead. Mr. M. takes possession on the 1st of August. He has been engaged in cattle raising. He will despace of thirty days.

Resolved that these resolutions of horses hereafter. This is the largest vote his attention to raising blooded sale ever made in this section.

The Survey...

The surveyors of the Nevada and Oregon Railroad will not be able to take the field before Monday. Then matters will be rushed forward as rapidly as possible.
